

Import Show

Reach this dialog via the [menu](#).

Import From Default Directory

- Click on a list entry to select a show file.
Note: The list contains all *.zts and *.json files in the default zacktrack show directory (/storage/emulated/0/Zacktrack/Shows).
- Click on Import to import the show stored in the selected file. **This will overwrite your current local show.**

Import From Any Directory

- Click on Import From... to open the default file browser on your tablet.
- You can now choose and import a valid show file (with *.json or *.zts extension) anywhere on your device. **This will overwrite your current local show.**
